| TEAM ID      | PNT2022TMID35057                         |
| PROJECT NAME |  |
|              | Real-Time River Water Quality Monitoring |
|              | and Controlling System                   |
| MARKS        | 4 Marks                                  |

## TECHNICAL ARCHITECTURE

Table-1 : Components & Technologies:

| S.No | Component              | Description                            | Technology                     |  |
|------|------------------------|--|--------------------------------|--|
| 1.   | User Interface         | How user interacts with application    | HTML, CSS, Node-Red ,Cloud,etc |  |
| 2.   | Application<br>Logic-1 | Logic for a process in the application | JAVA/PYTHON                    |  |
| 3.   | Application<br>Logic-2 | Logic for a process in the application | IBM WATSON STT services        |  |

| 4.  | Application<br>Logic-3                | Logic for a process in the application   | BM WATSON Assistant   |  |
|-----|---------------------------------------|--|---|--|
| 5.  | Database                              | Data Type, Configurations etc  | MySQL,PostgresSQL   |  |
| 6.  | Cloud<br>Database                     | Database Service on Cloud  | IBM DB2,IBM Cloudant etc  |  |
| 7.  | File Storage                          | File storage requirements  | IBM Block Storage or Other Storage<br>Service or Local Filesystem |  |
| 8.  | External API-1                        | Purpose of External API used in the application  | IBM Weather API, etc  |  |
| 9.  | External API-2                        | Purpose of External API used in the application  | Aadhar API, etc   |  |
| 10. | Machine<br>Learning<br>Model          | Purpose of External API used in the application  | Object Recognition Model, etc                                     |  |
| 11. | Infrastructure<br>(Server /<br>Cloud) | Application Deployment on Local<br>System / Cloud<br>Local Server Configuration:<br>Cloud Server Configuration | Local, Cloud Foundry, Kubernetes, etc.                            |  |

Table-2: Application Characteristics:

| S.No | Characteristics          | Description   | Technology           |
|------|--------------------------|---|----------------------|
|      | Open-Source Frameworks   | List the open-source  | Technology of        |
|      |                          | frameworks used   | Opensource framework |
| 2.   | Security Implementations | List all the security / access                                    | e.g. SHA-256,        |
|      |                          | controls implemented, use of                                      | Encryptions, IAM     |
|      |                          | firewalls etc   | Controls, OWASP etc. |
| 3.   | Scalable Architecture    | Justify the scalability of architecture (3 – tier, Microservices) | Technology used      |
| 4.   | Availability             | Justify the availability of application                           | Technology used      |
| 5.   | Performance              | Design consideration for the performance of the application       | Technology used      |
